To Love A ThiefVon Ein Kunde"To Love A Thief" by Merline Lovelace is the newest Code Name Danger title of her series. All they books take place in the supersecret world of the Omega Agency, an agency officially called "Offices of the President's Special Envoy", but in reality it's OMEGA and it's director answers only to the president. This agency solves problems other government agencies couldn't be entrusted with.Nick Jensen with the code name "Lightning", wealthy and elegant, is at the moment the acting director. When he and the communication's director of "Omega's", Mackenzie Blair, are nearly murdered, he supposes, that the reason lies in his shady past as a pickpocket in France. They head to France to find out who was trying to kill him and the reason why.Nick is somewhat hampered in his

actions by the fear for Mackenzie's life for whom he has fallen. Beautiful and adventurous Mackenzie, reluctant to start an affair with her boss, uses all her expertise in communications to help Nick eliminate the bad guys, the worst of them being a woman who fears that she might be found out as a spy and blackmailer. The story is not only full of suspense, but also a romance with hilarious situations. Don't miss it.

His most pressing assignment at the moment: heading to France to find out who was trying to kill him. And in that noble task he was assisted by Mackenzie Blair, Omega's communications director. This woman had gotten under his skin lately--and was turning even this assignment into a pleasure trip. But first things first. No use planning for the future until he was sure he had one....
