Von Rita Rainville : Too Hard to Handle (Romance, 1445) before purchasing it in order to gage whether or not it would be worth my time, and all praised Too Hard to Handle (Romance, 1445):

Journalist Christy is working on a travel story, and is with a group of elderly tourists. Strange fact one: They're a group on a mission to come in contact with aliens, and to disprove the secret government project theory, formulate plans to break into a famed military base. Strange fact two: the group is lead by Christy's psychic aunt Tillie(appearing in many Rita Rainville books) who believes that Christy is an alien. Well anyway, they trespass on Shane McBride's property, and are unwillingly put up by him when

one of their trailers explode. The rest of the story is about Tille (well atleast the main part anyway) who manages to shock people all the time with her true predictions, and communications with her dead husband. In the midst of all this confusion, including the nine other passengers, some paranormal occurrences, and a UFO sighting, is the romance between Christy and Shane. With all their attraction, their emotional baggages (he with past marriages and she with three ex-fiances) keep them apart till the end. A little strange, and a little too hard to handle, but those who go in for these types of books will enjoy it. For everyone else: plenty of humor for all you normal folks out there.

Kurzbeschreibung One look at Shane McBride told Christy Calhoun to run awayfast. The long, lean and very sexy rancher's every move shouted danger, and she'd sworn to avoid romance again. Unfortunately, with a broken-down RV, Christy had no choice but to stay for a spell Shane would've sooner mucked stalls than play host to his gorgeous houseguest! He'd vowed never to let a woman into his home, and this one reminded him why. The tempting beauty tested his normally rock-solid self-control. And this unfamiliar feeling was becoming way too hard to handle
