**Von Stephanie Bond : Too Hot to Sleep (Mills Boon Temptation)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Too Hot to Sleep (Mills Boon Temptation):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich.  
AMATUREISH ATTEMPT AT SENSUALITYVon Ein KundeI decided to read this book due to a review I read by Catherine Bishop on the All About Romance Web-site. The story sounded intriguing and the review stated the

sexuality was burning. The plot was unique in a "cutesy" sort of way and had wonderful possibilities, however I guess I've read too much Linda Howard, Stephanie Laurens, Nicole Jordan, and Dara Joy because the sensuality just left me flat. There's really only one consummate sex scene in this book and it lasts about a minute and a half. There is no romance to speak of at all and the idea of the heroine repeatedly placing sexual phone calls to the wrong number and not realizing she was talking to someone other than her boyfriend was difficult to buy into. I felt the whole tone of the book was adolescent in nature, if you want to read a really "So Called Hot" Contemporary Romance read Michelle Jerott's ABSOLUTE TROUBLE or ALL NIGHT LONG.0 von 0 Kunden fanden die folgende Rezension hilfreich. Great book for those who like their romance steamy! Von Barbara O'Neill Stephanie Bond's latest book is definitely not for the faint of heart. Having said that, I will also say that if you are one who likes their romance steamy you can't do better than this sexy, spicy, and often humorous tale of the ultimate 'wrong number'. I can certainly relate to the problem Georgia has with her new phone. I still have to call my son to help re-program the VCR remote. So, screwing up the speed dial is entirely possible to me. I did wonder about the believability of the heroine not knowing it wasn't her boyfriend on the line, but the author offers a plausible reason and because the phone calls were only a few, it was believable for me. Ms. Bond definitely pushes the envelope with this book, with her well-crafted 'flying solo' scenes. Does she push it out of bounds? Not in my opinion. The language is suggestive, but not explicit. She also gives us those elements we've come to expect: a hero and heroine who make mistakes and aren't afraid to apologize. The hero, Ken Medlock, makes a memorable case for himself in the end as he tries to legitimately win Georgia's love after having kept the truth from her for so long. Does this make him less heroic? No. It makes him human. I've read several of Ms. Bond's earlier books, and look forward to seeing more of her writing for this particular category. I did learn one very important fact from reading this book: There are white chocolate-covered cherries!0 von 0 Kunden fanden die folgende Rezension hilfreich. A lot of steak with this sizzle! Von Karen Templeton Georgia Adam's relationship with her so-called boyfriend has stalled out -- why, after ten months of dating, hasn't their relationship become more intimate? And why, she wonders, does she care so much? What is this libidinous monster raging inside an otherwise orderly, "good" girl? And how does one go about, exactly, convincing the man she picked precisely because he is safe and predictable and trustworthy (in other words, the antithesis of her philandering father -- a man whom she loved dearly, all the same) that it's way past time to up the ante, as it were? When a girlfriend suggests phone sex as a means to put some spark into the flat relationship, Georgia is at first leery. After all, what does she know about stuff like that? But she's desperate, and she can't sleep anyway, so. . . why not? Except, what she doesn't realize is that, in keying in her boyfriend's number into her new -- and exasperatingly defective -- answering machine, she's transposed two numbers. Ken Medlock, one of Birmingham's Finest, can't quite believe his ears -- or his good fortune -- when he gets this truly amazing phone call in the middle of the night. Now, the right thing, he knows, would be to tell the woman she has the wrong number. But. . . you know how it goes. And it's been a really lousy day. . . and, well, one thing leads to another, including, some time later, the first decent night's sleep the insomniac guy has had in weeks. And there things would have ended. . . except, through a fluke, Ken meets the unsuspecting Georgia the following day, and finds himself knocked clear into next week. Not to mention torn between wanting to get to know the strong, decent woman with the passionate nature better and not knowing how on earth to tell her that sure as heck wasn't Rob she was talking to the previous night. Since this is a Harlequin Temptation Blaze, one expects the book to be "hot" -- in other words, blatantly sexy. And this one is, no doubt about it. And, if that were the book's ONLY claim to fame, this reader probably would not be endorsing it. Sex for its own sake in any book -- even in a line as sensual as Blaze -- is not my cup of tea. However, having previously enjoyed Stephanie Bond's work, I figured if anyone could take this premise and wring it for everything it was worth, she could. I was not disappointed. Georgia Adams is a woman coming to terms with her sexuality, confused by whether or not her feelings are normal and natural. And the two men in her life -- our very human hero, Ken, and her "perfect" boyfriend Rob -- simply represent two sides of her personality: the side that wants equates "good" with "safe", and the passionate side. As Ken struggles with his dilemma of how to win over a woman he's basically lied to (an element that's handled with great skill, in this reader's opinion), Georgia's psyche is having a grand old time battling it out, as well. These are very real people, deftly drawn and presented -- no mean feat in a short book -- and Ms. Bond tells their story with a great deal of humor and compassion. For me, reading TOO HOT TO SLEEP was like devouring a small, sinfully rich piece of fine chocolate.

Kurzbeschreibung Nurse Georgia Adams can't sleep and it's got nothing to do with the local heat wave. She's got a lukewarm boyfriend, a nonexistent love life and she's frustrated, really frustrated. So she decides to take the edge off by calling her boyfriend for a little phone flirtation and a lot more! Only, she doesn't realize she's dialed the wrong number! Police officer Ken Medlock can't sleep, either--his libido is in overdrive thanks to his sexy midnight caller. He's captivated by her voice and when he meets and recognizes her the next day, he realizes he has to have her in his bed--not at the end of his phone line. But first he has to convince Georgia that her wrong number has turned into a very right connection. But first he has to convince Georgia that her wrong number has turned into a very right connection. Turn up the air conditioner for this one! **TOO HOT TO SLEEP** is my first 'Blaze' book for Harlequin, and does it ever sizzle! Ever wanted to spice up your sex life? Georgia Adams does and decides to surprise her lackluster boyfriend with a little phone flirtation--and more! Things go even better than she'd planned, except the hot-blooded cop on the other end of the line doesn't bother to tell her she has the wrong number! This comedy is a great, sexy beach read. Buy one for a friend who needs a quick pick-me-up. And please visit my website for more info on all my books, my upcoming releases, guest appearances, and much more! Much love and laughter! END
