Triumph Over PainVon Mary HosmarTooth For ToothKimberley PayneThis gripping story is a departure from Ms. Paynes usual work. Despite a couple of minor issues with the time line and other secondary details, the story is well told, educational and worth the read.Heather Williams, recently separated from her husband and struggling to build a new life for herself and her young daughter, Caitlin, discovers that life just isnt fair. Caitlin discloses to her sitter, that Daddy hurt me.What follows is a story that will tug at the readers heart-strings and give much-needed insight into the world of the Childrens Aid Society and the Family Court system.The story does not so much deal with Caitlins reaction and recovery as it does with Heathers. It reveals that a mother, sitter, or other adult, in spite of being familiar with a child, might still overlook the signs of abuse. Heathers struggles to come to grips with what she feels is her inadequacy as a mother resonate with all parents.At her mothers well-meant urging to get out of the house, Heather decides to attend a lecture at the church in her neighbourhood. One lecture leads to another and Heather eventually finds herself in a Bible study teaching about forgiveness. But will she be able to put theory into practice and forgive her ex? Could anyone?This reviewer has not been in this type of situation, but being a mother, can imagine some of the feeling this would conjure up. Thanks to extensive research, Ms. Paynes descriptive language goes beyond that

imagining to reality to tell the story with confidence and sincerity. I received a copy of this book in return for an honest review.

Kurzbeschreibung Dumped into single parenthood, Heather Williams has found a part-time job as a dental receptionist and a cozy apartment with her four-year-old daughter. Life finally looks safe and secure until her daughter reveals a terrifying secret that she's been molested by her own father. While struggling with her feelings towards her new boss, Heather tries to get the help her daughter needs, navigate the court system, and protect the child from further harm.
